SUMMARY

Third-year Software Engineering student at Ho Chi Minh City University of Technology (HCMUT) with experience in building responsive web applications using React and Tailwind CSS. Driven by a strong logical foundation, I am seeking a Front-End internship to deliver seamless user experiences. My long-term goal is to evolve into a Senior Front-End Developer and eventually a Full-stack Developer.

EDUCATION

- **VNUHCM - Ho Chi Minh City University of Technology (HCMUT)** Ho Chi Minh City, Viet Nam
Computer Science, English-Taught Program September 2023 – Now
- **Le Hong Phong High School for The Gifted** Ho Chi Minh City, Viet Nam
Major in Mathematics September 2020 – May 2023

TECHNICAL SKILLS

Programming Languages: JavaScript, HTML5/CSS3, Python

Front-End Technologies: React.js, Vite, Tailwind CSS

Data Fetching & State: Axios, RESTful APIs, React Hooks

Tools & Workflow: Git, Figma

PROJECT

- **Vietnamese Tuong Mask Archive - Digital Exhibition Platform** April 2026 - Present
 - Developed a web gallery to display 117 traditional masks using React.js and Tailwind CSS v4, focusing on smooth hover effects and transitions with Framer Motion.
 - Built a backend using FastAPI and SQLite to serve mask data.

Technologies: React.js, FastAPI, SQLite3, Tailwind CSS v4, Framer Motion, Vercel

Live Demo: [tuongvn.vercel.app](#)

Source Code: [hoonz565/tuong-mask](#)
- **FreelanceEDU - Educational Freelance Platform** November 2025 - January 2026
 - Collaborated in a 7-member Agile team, taking full ownership of Front-End modules for Student Jobspace, Student Application, and Reviews, utilizing Jira for sprint tracking.
 - Integrated UI components with Back-End APIs via Axios and enforced strict Git workflows, ensuring seamless data flow.

Technologies: React 19, Vite, Tailwind CSS, Git, Jira

Source Code: [FreelanceEDU](#)
- **BKies - Smart Campus Mobility Platform** March 2026 - April 2026
 - Engineered a mobile-first web interface using React.js and Tailwind CSS, managing local states for simulated payments.
 - Elevated UX by implementing fluid page transitions and interactive animations with Framer Motion.

Technologies: React.js, Vite, Tailwind CSS, Framer Motion

Live Demo: [bkies.vercel.app](#)

Source Code: [hoonz565/bkies](#)

CERTIFICATIONS

- **IELTS - International English Language Testing System (Academic)**

Overall Band Score: [6.5](#)

Issued June 2025
